Litter Bin
Eterna

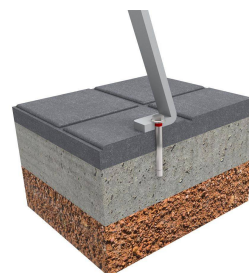

PA661

Litter bin made of 4mm-thickness high density polyethylene, resistant to UV rays, chemical agents and impacts. Inner polyethylene bucket with 80L capacity and separated stainless steel ashtray (the fag-ends are not thrown in the same container). Stainless steel screws, AISI 304. Finishing: Wrinkled finishing (stickers cannot properly be glued). Black forge colour. Recommended anchoring: Four Ø10 expansion bolts, depending on the surface.
